Essentials To Prepare Before Inquiring

Goals & Vision:

Define what you want to capture and convey in the video—whether it's showcasing a creative process, event vibe, or day-to-day environment.

Shoot Location & Environment:

Have a location in mind that aligns with your brand aesthetic, and confirm availability (if it's a rental, you'll need to handle booking fees).

Key Moments or Elements:

Identify any specific parts of your process or event you want to highlight to make the video impactful (e.g., specific interactions, close-up shots of work, team dynamics).

Audience & Platform Focus:

Clarify who your main audience is and where you plan to share the video (social media, website) to tailor the style and format of the content.

Logistics:

Determine shoot dates, and let us know any setup needs like lighting, props, or staging if necessary for the video's style.

Brand Aesthetic:

Share your brand colors, style, or mood boards to help ensure the video's visual tone matches your brand identity.
